BUSINESS MODEL : SOLAR PARK

- 
- An aerial photograph of a vast solar park. Rows of solar panels are laid out in neat, parallel lines across a flat, open landscape. The panels are dark blue or black, contrasting with the lighter ground. In the background, there are some trees and a distant horizon under a hazy sky. The overall scene conveys a sense of large-scale renewable energy production.
- 1.Common Transmission Line
 - 2.Common Infrastructure
 - 3.Common Utilities
 - 4.Sustainable power source
 - 5.Technological innovation
 - 6.Land use optimization
 - 7.Government incentives and subsidies
 - 8.Low operating and maintenance costs
